Aquaculture Licences Appeals Board**Notice of Appeal Under Section 40(1) of Fisheries (Amendment) Act 1997 (No.23)****APPEAL FORM**

Please note that in accordance with Section 40(2) of the 1997 Act this form will only be accepted if delivered by **REGISTERED POST or by hand** to the ALAB offices at the following address: **Aquaculture Licences Appeals Board, Kilminchy Court, Dublin Road, Portlaoise, Co. Laois, R32 DTW5**

Name of Appellant (Block Letters)

ELIZABETH TIMMONS

Address of Appellant

Eircode

Phone No.

Email address (enter below)

Mobile No.

Please note if there is any change to the details given above, the onus is on the appellant to ensure that ALAB is notified accordingly.

FEES**Fees must be received by the closing date for receipt of appeals**

Amount

Tick

An appeal by an applicant for a licence against a decision by the Minister in respect of that application

€380

An appeal by the holder of a licence against the revocation or amendment of that licence by the Minister

€380

An appeal by any other individual or organisation

€150

Request for an Oral Hearing* (fee payable in addition to appeal fee)

€75

*In the event that the Board decides not to hold an Oral Hearing the fee will not be refunded

Fees can be paid by way of Cheque or Electronic Funds Transfer

Cheques are payable to the Aquaculture Licences Appeals Board in accordance with the Aquaculture Licensing Appeals (Fees) Regulations, 2021 (S.I. No. 771 of 2021)

Electronic Funds Transfer Details

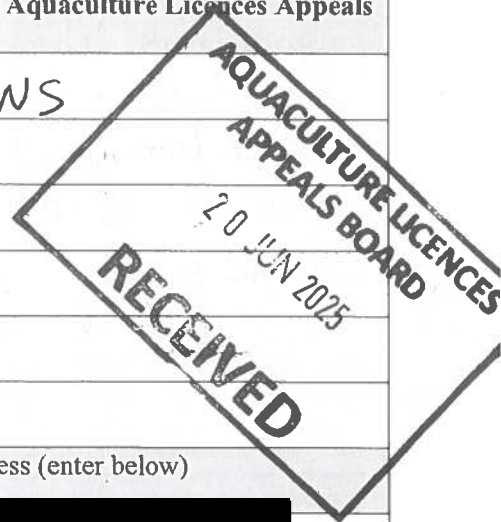

IBAN:

IE89AIBK93104704051067

BIC: AIBKIE2D

Please note the following:

1. Failure to submit the appropriate fee with your appeal will result in your appeal being deemed invalid.
2. Payment of the correct fees **must be received on or before** the closing date for receipt of appeals, otherwise the appeal will not be accepted.
3. The appropriate fee (or a request for an oral hearing) must be submitted against each determination being appealed.

Aquaculture Licences Appeals Board

The Legislation governing the appeals is set out at Appendix 1 below.

SUBJECT MATTER OF THE APPEAL	
<p>I am writing to formally appeal the decision to grant an aquaculture license to Woodstown Bay Shellfish Limited for bottom-culture mussel farming on a 23.1626-hectare site (T05-472A) in Kinsale Harbour, Co Cork. I contend that the decision overlooks several material concerns that warrant further scrutiny.</p> <p>Note that we have not had access to all relevant documentation online.</p>	
Site Reference Number: - (as allocated by the Department of Agriculture, Food, and the Marine)	T05-472A
APPELLANT'S PARTICULAR INTEREST	
Briefly outline your particular interest in the outcome of the appeal:	
<p>This mussel farm threatens Dock Beach - a cherished public swimming and family spot. These mussels could concentrate sewage bacteria - and the Dock Beach is downstream of the treatment plant.</p> <p>Bottom mussel farming means dredging the seafloor - disturbing habitats and stirring up sediment.</p> <p>There are ZERO economic benefits to Kinsale - no local jobs, no local ownership.</p>	
GROUNDS OF APPEAL	
State in full the grounds of appeal and the reasons, considerations, and arguments on which they are based) (if necessary, on additional page(s)):	
<p>1/ PUBLIC ACCESS & RECREATIONAL USE</p> <p>Large-scale aquaculture developments can restrict navigation, impact traditional fishing routes and interfere with recreational activities. It remains unclear how public access will be preserved, or whether local stakeholders such as water sports users and tourism operators were adequately consulted in the licensing process.</p>	

2/ NAVIGATIONAL AND OPERATIONAL SAFETY OVERLOOKED

Under the Fisheries (Amendment) Act 1997, the Minister must consider the implications of aquaculture operations on navigation and the rights of other marine users. No anchor zones and exclusion zones will prohibit existing fishing and recreational activities.

3/ PUBLIC HEALTH CONCERNS

The proximity of the mussel farm to wastewater treatment plants both at the Bulman, Summercove, Kinsale and at Castle Park Kinsale raises serious concerns under EU water quality directives. The risk of contamination and its implications for shellfish safety and public health have not been sufficiently evaluated.

4/ FOULING OF RAW WATER INTAKES - A KNOWN HAZARD

Mussel larvae (veligers) can infiltrate and colonise raw water intake systems in leisure and commercial vessels, particularly those moored long-term or infrequently used. Resulting blockages may lead to engine overheating and failure. This risk has not been acknowledged in the licence determination. The consequences may extend to increased RNLI call-outs, raising public safety and resourcing concerns. No evidence is provided that the Harbour Master, RNLI, boat owners or marina operators were consulted, nor are any mitigation measures (e.g. buffer zones or monitoring protocols) described. This constitutes a serious procedural deficiency. A Marine Navigation Impact Assessment is required to address this omission. This concern was explicitly raised in the submission by the Kinsale Chamber of Tourism and Business.

5/ DISPLACEMENT OF TRADITIONAL FISHERIES

The proposed site would exclude local fisherman using crab pots and other static gear from a 23-hectare fishing ground traditionally accessed by licensed fishers. This has not been acknowledged in the license, despite the Harbour Master requiring that the area be designated as a "no pots/fishing" zone. Displacement of static gear fisheries without consultation or provision of compensatory access undermines traditional livelihoods and may be challengeable under EU Common Fisheries Policy obligations. A Marine Resource User Impact Statement should have been undertaken.

6/ ABSENCE OF OPERATING AGREEMENT WITH PORT AUTHORITY

Cork County Council, as Port Authority for Kinsale Harbour has CONFIRMED that no Operating Agreement was received from the applicant. Vessel activity, dredging schedule, licensing and safety protocols were not submitted to the Harbour Master. Without this, no risk assessment on shipping interference, beaching protocols, or berthing pressure was possible. Granting a license in the absence of this data is premature and procedurally deficient.

1. The first step in the process of the scientific method is to ask a question.

2. The second step is to do background research on the topic.

3. The third step is to form a hypothesis, which is a prediction about the outcome of the experiment.

4. The fourth step is to design and conduct the experiment.

5. The fifth step is to analyze the data and draw a conclusion.

6. The sixth step is to communicate the results of the experiment.

7. The seventh step is to repeat the experiment to verify the results.

8. The eighth step is to publish the results of the experiment.

9. The ninth step is to use the results of the experiment to answer the question.

10. The tenth step is to use the results of the experiment to develop a theory.

11. The eleventh step is to use the theory to make predictions.

12. The twelfth step is to test the predictions.

13. The thirteenth step is to use the results of the test to refine the theory.

14. The fourteenth step is to use the refined theory to make new predictions.

15. The fifteenth step is to test the new predictions.

16. The sixteenth step is to use the results of the test to further refine the theory.

CONFIRMATION NOTICE ON EIA PORTAL (if required)

In accordance with Section 41(1) f of the Fisheries (Amendment) Act 1997, where an Environmental Impact Assessment (EIA) is required for the project in question, please provide a copy of the confirmation notice, or other evidence (such as the Portal ID Number) that the proposed aquaculture the subject of this appeal is included on the portal established under Section 172A of the Planning and Development Act 2000. (See Explanatory Note at Appendix 2 below for further information).

Please tick the relevant box below:

EIA Portal Confirmation Notice is enclosed with this Notice of Appeal	
Other evidence of Project's inclusion on EIA Portal is enclosed or set out below (such as the Portal ID Number)	
An EIA was not completed in the Application stage/the Project does not appear on the EIA Portal	✓

Details of other evidence	N/A
---------------------------	-----

Signed by the Appellant		Date	18/6/2025
-------------------------	-------------------------------------------------------------------------------------	------	-----------

Please note that this form will only be accepted by REGISTERED POST or handed in to the ALAB offices

Payment of fees must be received on or before the closing date for receipt of appeals, otherwise the appeal will be deemed invalid.

This Notice of Appeal should be completed under each heading, including all the documents, particulars, or information as specified in the notice and duly signed by the appellant, and may include such additional documents, particulars, or information relating to the appeal as the appellant considers necessary or appropriate."

DATA PROTECTION – the data collected for this purpose will be held by ALAB only as long as there is a business need to do so and may include publication on the ALAB website.

Appendix 1.

Extract from the Fisheries (Amendment) Act 1997 (No.23)

40. (1) A person aggrieved by a decision of the Minister on an application for an aquaculture licence or by the revocation or amendment of an aquaculture licence may, before the expiration of a period of one month beginning on the date of publication in accordance with this Act of that decision, or the notification to the person of the revocation or amendment, appeal to the Board against the decision, revocation or amendment, by serving on the Board a notice of appeal.

(2) A notice of appeal shall be served—

- (a) by sending it by **registered post** to the Board,
- (b) by **leaving it at the office of the Board**, during normal office hours, with a person who is apparently an employee of the Board, or
- (c) by such other means as may be prescribed.

(3) The Board shall not consider an appeal notice of which is received by it later than the expiration of the period referred to in subsection (1)

41. (1) For an appeal under section 40 to be valid, the notice of appeal shall—

- (a) be in writing,
- (b) state the name and address of the appellant,
- (c) state the subject matter of the appeal,
- (d) state the appellant's particular interest in the outcome of the appeal,
- (e) state in full the grounds of the appeal and the reasons, considerations and arguments on which they are based, and
- (f) where an environmental impact assessment is required under Regulation 3 of the Aquaculture Appeals (Environmental Impact Assessment) Regulations 2012 (SI No 468 of 2012), include evidence of compliance with paragraph (3A) of the said Regulation 3, and
- (g) **be accompanied by such fee**, if any, as may be payable in respect of such an appeal in accordance with regulations under *section 63*, and

shall be accompanied by such documents, particulars or other information relating to the appeal as the appellant considers necessary or appropriate.

****Please contact the ALAB offices in advance to confirm office opening hours.**

Appendix 2.

Explanatory Note: EIA Portal Confirmation Notice/Portal ID number

The EIA Portal is provided by the Department of Housing, Local Government and Heritage as an electronic notification to the public of requests for development consent that are accompanied by an Environmental Impact Assessment Report (EIA Applications). The purpose of the portal is to provide information necessary for facilitating early and effective opportunities to participate in environmental decision-making procedures.

The portal contains information on EIA applications made since 16 May 2017, including the competent authority(ies) to which they are submitted, the name of the applicant, a description of the project, as well as the location on a GIS map, as well as the Portal ID number. The portal is searchable by these metrics and can be accessed at:

<https://housinggov.ie/maps.arcgis.com/apps/webappviewer/index.html?id=d7d5a3d48f104ecbb206e7e5f84b71f1>

Section 41(1)(f) of the Fisheries (Amendment) Act 1997 requires that “*where an environmental impact assessment is required*” the notice of appeal shall show compliance with Regulation 3A of the Aquaculture Appeals (Environmental Impact Assessment) Regulations 2012 (S.I. 468/2012), as amended by the Aquaculture Appeals (Environmental Impact Assessment) (Amendment) Regulations 2019 (S.I. 279/2019) (The EIA Regulations)

Regulation 3A of the EIA Regulations requires that, in cases where an EIA is required because (i) the proposed aquaculture is of a class specified in Regulation 5(1)(a)(b)(c) or (d) of the Aquaculture (Licence Application) Regulations 1998 as amended – listed below, or (ii) the Minister has determined that an EIA was required as part of their consideration of an application for intensive fish farming, an appellant (that is, the party submitting the appeal to ALAB, including a third party appellant as the case may be) must provide evidence that the proposed aquaculture project that is the subject of the appeal is included on the EIA portal.

If you are a third-party appellant (that is, not the original applicant) and you are unsure if an EIA was carried out, or if you cannot find the relevant Portal ID number on the EIA portal at the link provided, please contact the Department of Housing, Local Government and Heritage for assistance before submitting your appeal form.

The Classes of aquaculture that are required to undergo an EIA specified in Regulation 5(1)(a)(b)(c) and (d) of the Aquaculture (Licence Application) Regulations 1998 S.I. 236 of 1998 as amended are:

- a) Marine based intensive fish farm (other than for trial or research purposes where the output would not exceed 50 tonnes);
- b) All fish breeding installations consisting of cage rearing in lakes;
- c) All fish breeding installations upstream of drinking water intakes;
- d) Other fresh-water fish breeding installations which would exceed 1 million smolts and with less than 1 cubic metre per second per 1 million smolts low flow diluting waters.

In addition, under Regulation 5(1) (e) of the 1998 Regulations, the Minister may, as part of his or her consideration of an application for intensive fish farming, make a determination under Regulation 4A that an EIA is required.
