SUBJECT MATTER OF THE APPEAL

I Appeal against the granting of a licence to the Salmon farm at Deenish Island owned by Silver Seafoods Ltd / Mowi.

Site Reference Number: - (as allocated by the Department of Agriculture, Food, and the Marine)	T 01 / 202

APPELLANT'S PARTICULAR INTEREST

Briefly outline your particular interest in the outcome of the appeal:

I wrote the first treatise on the environmental effects of Salmon farming in 1989: "Intensive Fin Fish Farming — A Cause for Concern". During Salmara's request for a licence I lectured in Waterville, Bantry, Kenmare etc on the topic. I regarded the Salmon farm (and still do) as a Massive threat to wild Salmonids and represented the Waterville Environmental Preservation Group [WEPG] in discussions with Salmara + government Agencies.

GROUNDS OF APPEAL

State **in full** the grounds of appeal and the reasons, considerations, and arguments on which they are based) (if necessary, on additional page(s)):

Martin Conway [M.D. Salmara] and Paddy Moriarty [E.S.B Chief Executive] agreed to abide with the wishes of Waterville citizens concerning the farm. A Public meeting / referendum was held on 10/3/1990 in the Strand Hotel at which Salmara were to attend. They failed to do so, the referendum was held and the Waterville result was 320 against the farm, 6 for the farms on Saturday 10/3/90. The following Monday the farms were towed into place. It was the most egregious dismissal of a democratic decision / agreement I had ever witnessed. The farm was placed against the wishes of the people, it should be rejected.

Appendix 1.

Extract from the Fisheries (Amendment) Act 1997 (No.23)

40. (1) A person aggrieved by a decision of the Minister on an application for an aquaculture licence or by the revocation or amendment of an aquaculture licence may, before the expiration of a period of one month beginning on the date of publication in accordance with this Act of that decision, or the notification to the person of the revocation or amendment, appeal to the Board against the decision, revocation or amendment, by serving on the Board a notice of appeal.

(2) A notice of appeal shall be served—

(a) by sending it by **registered post** to the Board,

(b) by **leaving it at the office of the Board**, during normal office hours, with a person who is apparently an employee of the Board, or

(c) by such other means as may be prescribed.

(3) The Board shall not consider an appeal notice of which is received by it later than the expiration of the period referred to in subsection (1)

41. (1) For an appeal under section 40 to be valid, the notice of appeal shall—

(a) be in writing,

(b) state the name and address of the appellant,

(c) state the subject matter of the appeal,

(d) state the appellant's particular interest in the outcome of the appeal,

(e) state in full the grounds of the appeal and the reasons, considerations and arguments on which they are based, and

(f) where an environmental impact assessment is required under Regulation 3 of the Aquaculture Appeals (Environmental Impact Assessment) Regulations 2012 (SI No 468 of 2012), include evidence of compliance with paragraph (3A) of the said Regulation 3, and

(g) **be accompanied by such fee**, if any, as may be payable in respect of such an appeal in accordance with regulations under *section 63*, and shall be accompanied by such documents, particulars or other information relating to the appeal as the appellant considers necessary or appropriate.

42. (1) The Board may, in its discretion, treat two or more appeals as, and the appellants as parties to, a single appeal and may at any time separate such appeals.

**Please contact the ALAB offices in advance to confirm office opening hours.

Appendix 2.

Explanatory Note: EIA Portal Confirmation Notice/Portal ID number

The EIA Portal is provided by the Department of Housing, Local Government and Heritage as an electronic notification to the public of requests for development consent that are accompanied by an Environmental Impact Assessment Report (EIA Applications). The purpose of the portal is to provide information necessary for facilitating early and effective opportunities to participate in environmental decision-making procedures.

The portal contains information on EIA applications made since 16 May 2017, including the competent authority(ies) to which they are submitted, the name of the applicant, a description of the project, as well as the location on a GIS map, as well as the Portal ID number. The portal is searchable by these metrics and can be accessed at:
https://housinggovie.maps.arcgis.com/apps/webappviewer/index.html?id=d7d5a3d48f104ecbb206e7e5f84b71f1

Section 41(1)(f) of the Fisheries (Amendment) Act 1997 requires that "*where an environmental impact assessment is required*" the notice of appeal shall show compliance with Regulation 3A of the Aquaculture Appeals (Environmental Impact Assessment) Regulations 2012 (S.I. 468/2012), as amended by the Aquaculture Appeals (Environmental Impact Assessment) (Amendment) Regulations 2019 (S.I. 279/2019) (The EIA Regulations)

Regulation 3A of the EIA Regulations requires that, in cases where an EIA is required because (i) the proposed aquaculture is of a class specified in Regulation 5(1)(a)(b)(c) or (d) of the Aquaculture (Licence Application) Regulations 1998 as amended – listed below, or (ii) the Minister has determined that an EIA was required as part of their consideration of an application for intensive fish farming, an appellant (that is, the party submitting the appeal to ALAB, including a third party appellant as the case may be) must provide evidence that the proposed aquaculture project that is the subject of the appeal is included on the EIA portal.

If you are a third-party appellant (that is, not the original applicant) and you are unsure if an EIA was carried out, or if you cannot find the relevant Portal ID number on the EIA portal at the link provided, please contact the Department of Housing, Local Government and Heritage for assistance before submitting your appeal form.

The Classes of aquaculture that are required to undergo an EIA specified in Regulation 5(1)(a)(b)(c) and (d) of the Aquaculture (Licence Application) Regulations 1998 S.I. 236 of 1998 as amended are:

a) Marine based intensive fish farm (other than for trial or research purposes where the output would not exceed 50 tonnes);
b) All fish breeding installations consisting of cage rearing in lakes;
c) All fish breeding installations upstream of drinking water intakes;
d) Other fresh-water fish breeding installations which would exceed 1 million smolts and with less than 1 cubic metre per second per 1 million smolts low flow diluting waters.

In addition, under Regulation 5(1) (e) of the 1998 Regulations, the Minister may, as part of his or her consideration of an application for intensive fish farming, make a determination under Regulation 4A that an EIA is required.
