Dear Secretary ,

I am writing to object to the proposed aquaculture and foreshore developments in Ballyness Bay, County Donegal. As a concerned citizen, and frequent visitor with family in the areal, this proposal will greatly diminish the value of the bay's natural beauty, destroy the local wildlife and importance to the community.

I am concerned about potential damage to sensitive habitats and wildlife, including the combined effects of cultivation structures, equipment and vehicle movements. Please explain how these impacts have been assessed and how the bay's conservation interests would be protected.

I am also concerned about the potential effects on the landscape, tourism, local businesses and safe public access for walking, swimming and kayaking. The scale of development and the views of the community deserve full consideration.

I urge you to address these concerns within your responsibilities and support the protection of Ballyness Bay. Please acknowledge this letter, provide a written response and confirm the appropriate route for lodging a formal objection or appeal.

Yours sincerely,

Amanda Kennedy
