To whom it may concern,

I am writing to urge you not to allow this project to move forward. Proceeding with it will cause significant damage to the environment, and we have already seen the disastrous results at other Oyster Bay plants, particularly the one outside Dungloe.

We are the stewards of our environment for future generations, and it is vital that we recognize the importance of this responsibility. It is unethical to destroy this land for short-term financial gain. As Pope Francis has emphasized, destroying the environment is a grave moral failing. We live in a time when we must appreciate and protect our countryside for its natural beauty and history.

Please let us act as guardians of this bay rather than allow its destruction for capital. People, culture, and the environment must be prioritized over money. By protecting our natural landscape, we can build a sustainable local economy through tourism and long-term stewardship.

I strongly ask you to think long term and stop this development.

Sincerely,
Fiona Foley
