I am writing to formally express my strong opposition to the proposed development of an oyster farm in Ballyness Bay.

While I recognize the importance of supporting local enterprise and coastal industries, Ballyness Bay is an ecologically sensitive area of immense natural beauty and rich biodiversity. Introducing an industrial-scale or commercial oyster farm here risks causing irreversible damage to the local ecosystem, disturbing native marine life and bird habitats, and negatively impacting the natural heritage of our coastal landscape.

The bay serves as a vital amenity for the local community and visitors alike, supporting recreational use, tourism, and traditional activities that rely on the unspoiled nature of the area. Commercial operations of this scale would significantly alter the character of the bay and conflict with these important local interests.

For these reasons, I urge you to reconsider this proposal and reject the plans for the oyster farm in Ballyness Bay. Thank you for your time and consideration of this urgent environmental and community concern.

Lauren
