Dear Sir/Madam,

As a local resident and very regular user of Ballyness Bay for walking and paddleboarding I would like to object to the granting of a aquaculture licence at this site. My objection focuses on the environmental damage and especially the waste products that rely on the tide to "flush" then out. Any observation of the beach by Ballyness harbour will demonstrate that items remain there for years (crockery, glass, dead seabirds, foam from previous storms). Thus I would see this Bay being polluted by bringing in unnatural items that would rot there and change the character of the area.

Roger Mac Ginty
