Dear secretary,

Hope you are well. I am writing to you to object to the licences for oyster farming in ballyness bay, Falcarragh, Co Donegal.
There are so many concise points I'm sure you have received from locals as to why these licences should not be granted.
Please don't destroy our breathtaking bay. It really is beautiful, especially in low tide with the sands. I don't know how I could ever justify to the next generations how we managed to destroy such a sight of natural beauty. Please don't let these go ahead. There is quite a bit of evidence in the Foyle that these oysters are invasive and destroy the native species. The metal trestles are just a horrid sight. Please please help us protect our bay. The large companies (who will enviably buy the licences off the locals) will pillage our communities, some things are more important than money.
Thank you for taking the time to read this.

The Morris family
