## Appendix 2.

### Explanatory Note: EIA Portal Confirmation Notice/Portal ID number

The EIA Portal is provided by the Department of Housing, Local Government and Heritage as an electronic notification to the public of requests for development consent that are accompanied by an Environmental Impact Assessment Report (EIA Applications). The purpose of the portal is to provide information necessary for facilitating early and effective opportunities to participate in environmental decision-making procedures.

The portal contains information on EIA applications made since 16 May 2017, including the competent authority(ies) to which they are submitted, the name of the applicant, a description of the project, as well as the location on a GIS map, as well as the Portal ID number. The portal is searchable by these metrics and can be accessed at:

<https://housinggov.ie/maps.arcgis.com/apps/webappviewer/index.html?id=d7d5a3d48f104ecbb206c7e5f84b71f1>

Section 41(1)(f) of the Fisheries (Amendment) Act 1997 requires that “where an environmental impact assessment is required” the notice of appeal shall show compliance with Regulation 3A of the Aquaculture Appeals (Environmental Impact Assessment) Regulations 2012 (S.I. 468/2012), as amended by the Aquaculture Appeals (Environmental Impact Assessment) (Amendment) Regulations 2019 (S.I. 279/2019) (The EIA Regulations)

Regulation 3A of the EIA Regulations requires that, in cases where an EIA is required because (i) the proposed aquaculture is of a class specified in Regulation 5(1)(a)(b)(c) or (d) of the Aquaculture (Licence Application) Regulations 1998 as amended – listed below, or (ii) the Minister has determined that an EIA was required as part of their consideration of an application for intensive fish farming, an appellant (that is, the party submitting the appeal to ALAB, including a third party appellant as the case may be) must provide evidence that the proposed aquaculture project that is the subject of the appeal is included on the EIA portal.

If you are a third-party appellant (that is, not the original applicant) and you are unsure if an EIA was carried out, or if you cannot find the relevant Portal ID number on the EIA portal at the link provided, please contact the Department of Housing, Local Government and Heritage for assistance before submitting your appeal form.

The Classes of aquaculture that are required to undergo an EIA specified in Regulation 5(1)(a)(b)(c) and (d) of the Aquaculture (Licence Application) Regulations 1998 S.I. 236 of 1998 as amended are:

- a) Marine based intensive fish farm (other than for trial or research purposes where the output would not exceed 50 tonnes);
- b) All fish breeding installations consisting of cage rearing in lakes;
- c) All fish breeding installations upstream of drinking water intakes;
- d) Other fresh-water fish breeding installations which would exceed 1 million smolts and with less than 1 cubic metre per second per 1 million smolts low flow diluting waters.

In addition, under Regulation 5(1) (e) of the 1998 Regulations, the Minister may, as part of his or her consideration of an application for intensive fish farming, make a determination under Regulation 4A that an EIA is required.

Aquaculture Licences Appeals Board,  
Kilminchy Court,  
Dublin Road,  
Portlaoise,  
Co. Laois R32 DTW5

25th June, 2025.

Dear Appeals Officer,

Members of the Bandon Kinsale Municipal District office wish to make an appeal on the following grounds as agreed at the Full Council Meeting of Cork County Council of 9<sup>th</sup> June, 2025.

1. Over 1,000 people objected to the original proposal to grant this licence.
2. This decision will impact the shipping channel and many other activities including Tourism, Recreation, Industry and existing local businesses.
3. Kinsale has a reputation as a safe harbour for boats. There will be a cost to fishermen and a threat will be posed to shrimp fishing.
4. Decision to grant the licence contravenes many EU directives.
5. Cruiseliners into Kinsale has been an extremely effective way of attracting tourism into the area and this could now be affected.
6. Tourism is a key plank of Cork's economic success and Kinsale is the jewel in the crown of Cork tourism.
7. There is universal opposition to the proposal.
8. No cognisance taken of the social and economic impact of the decision on the town of Kinsale.
9. This decision could increase the number of RNLI call outs, many of whom are volunteers.
10. Decision to grant licence should be appealed.
11. Protection of the beach (Dock beach) is vital.
12. This is a fight to keep Kinsale Harbour open for all and this decision will have a detrimental effect on Kinsale.

In addition, the concerns raised by the council, in its initial observations to the licencing process, in relation to the potential impact of granting the licence under the following headings have not been satisfactorily addressed by the Minister in the grant of licence:

2. Operating Agreement
3. Fees
4. Bathymetric Surveys
5. Water Quality
6. Archaeological Survey
7. Safety of Navigation in the Harbour
8. Jarley's Cove Beach amenity
9. Environmental Impact Survey

Furthermore, since this process was initiated, Cork County Council has adopted a Climate Action Plan and a Biodiversity Action Plan, both of which would pertain to the location of the proposed mussel farm. Also, as part of the National Marine Planning Framework, a Designated Maritime Area Plan (DMAP) will be prepared to allow for the construction of offshore wind turbines, which may be impacted by the location of this proposed mussel farm.

The salient objections that pertained in 2019 are all still relevant and have been compounded by new realities like offshore wind and Cork County Council's successful cruise tourism policy.

Kind Regards
