

To Whom It May Concern:

Personally I believe Kilmackiloge Harbour is at capacity but have appealed these decisions to refuse our licence applications to highlight what's gone on with licencing of site in the Harbour,

The department have pushed the agenda of one company Kush Sea Farms at the expense of everyone and called into question the process of applying for a licence and legitimacy of licences issued.

Date 22<sup>nd</sup> October 2019.

Rej. T06/254.

Appal of Decision to Refuse Site Application No. T06/254

We do not understand why our site application was refused,

Our site application was refused for the following reasons,

- Increased negative visual impact;
- Negative impact on the existing licensed sites in the harbour

However site application number T06/360A was granted a licence even though it right next to our site and to add injury to insult we believe part of our site (T06/254) may have even been used to facilitate the granting of Site T06/360A.

Our application was in many years before T06/360A.

We have a very small existing site of six hectors while Kush have over 50 hectors at least of existing granted sites.

This site would be very useful to use as it's next to our existing granted licence and would make our farm more viable.

Why would Site T06/360A be granted and Site T06/254 not be granted.
