

A Chara

REF: AP45/2018

Site: T5/519

Please find enclosed a map of site T5/519. The distance marked A is at present 110 metres. We are awaiting drawings and approval from the Department to move our site outside the 120 metres as requested in your letter dated 18th February 2020.

We have no objections to this, the other seaweed sites to the east of the salmon farm are 50 metres and 75 metres.

I will send revised drawings hopefully within 30 days.

Yours sincerely

Ed Sheehan
