Re APPEAL OF REFUSAL TO RENEW OYSTER FARMING LICENCE REF  
T06/201

Dear Sirs

I refer to your letter of 7 February 2020. I am happy to have my appeal of the decision to refuse the renewal of my Oyster Licence to be considered together with those of Kush Seafarms and Temploe Oysters. I believe that the refusal of these licences were unreasonable and unfounded on the same grounds as my own appeal

I do not wish to have my appeal included with that of Bioatlantis Aquamarine. This is a new application for a different species in a completely different location. Furthermore I do not agree with the granting of this Licence, which would introduce mussel farming to the main waterbody of Kenmare Bay .This should not be considered without an integrated plan for the development of the whole Bay There is great local opposition to such development, and this is creating a negative public attitude to the shellfish industry in the area.

Yours sincerely

Rosemary Purcell
